The best hotels in Los Angeles, according to T+L readers, nail that rare but important balancing act: attracting locals and visitors in equal measure. Residents of the Greater L.A. area often rely on these properties as social hubs, so they're looking for hotels with stellar dining outlets, stylish bars that serve killer cocktails, and amenities like scene-y pools and serene spas that form the building blocks of a perfect staycation. Travelers, on the other hand, crave hotels with attributes that help them achieve the platonic ideal of a California getaway, whether that's proximity to the beach or the promise of rubbing elbows with famous clientele.
